- R6 Final POF Shop Drawings- Rubber Bearing PL KPF

Questions Asked and Answers Provided:

Question #1: Is Pacific Pile & Marine allowed to bid on this project since they provided the design with Jesse Engineering?

Answer #1: Pacific Pile & Marine and Jesse Engineering would be allowed to bid on the project. Jesse Engineering provided the drawings for the King County gangway that was constructed in 1996. It is Kitsap Transit's contention that the structure, materials and design have changed enough that a competitive advantage does not exist. Pacific Pile & Marine has provide drawings to King County for the bearings and attachment layout where the completed gangway will be install but was not involved in the design of the gangway itself; no competitive advantage exists.

KPFF has provided the drawings that pertain to the bases of design for the Kitsap Transit gangway project. If you have any other questions, please let me know.

All other terms and conditions remain the same.

END ADDENDUM 1

Please remember to acknowledge this addendum on your bid sheet.
